PROFESSIONAL SUMMARY

Master's student in Artificial Intelligence and Data Science (FSBM Hassan II University). Solid skills in Data Science (Machine Learning, Deep Learning) and Data Engineering (ETL Pipelines, Docker). Hands-on experience in designing predictive models, deploying APIs, and building analytical dashboards. Curious, rigorous, and comfortable in international environments (English C1).

ACADEMIC QUALIFICATIONS

Master of Excellence in Artificial Intelligence (M2) — 2025 – 2027
Faculty of Sciences Ben M'Sik (FSBM) — Hassan II University, Casablanca
Key modules: Machine Learning, MLOps & DataOps, Systèmes Distribués & Big Data, Optimisation, IA Générative.

Bachelor of Excellence in Artificial Intelligence — 2024 – 2025
Faculty of Sciences Ben M'Sik (FSBM) — Hassan II University, Casablanca

Higher Technician Certificate (BTS) — Information Systems Development — 2022 – 2024
Lycée Technique / Institut Maghreb Arabe — Oujda

TECHNICAL SKILLS

- **Data Science & Machine Learning:** Python (Pandas, NumPy, Scikit-Learn), Statistics, Regression, Classification, Clustering, Model Evaluation (ROC-AUC, F1-Score).
- **Deep Learning:** PyTorch, CNN, Grad-CAM, Fine-tuning (Tacotron 2, WaveGlow).
- **Data Engineering & MLOps:** SQL (PostgreSQL, MySQL), ETL Pipelines, Docker, CI/CD (GitHub Actions), Git/Github.
- **Deployment & API:** FastAPI, REST API.
- **Visualization & BI:** Power BI (DAX, Dashboards), Matplotlib, Seaborn, Excel, Jira (Agile).
- **In the process of learning:** NLP, Generative IA, Agentic IA, Reinforcement Learning, Tableau.

DATA & AI PROJECTS

Pneumonia Detection using Deep Learning | Python, PyTorch, Grad-CAM
- Automated classification of chest X-rays using a Convolutional Neural Network (CNN).
- Integrated Grad-CAM for visual explainability of medical predictions (ROC-AUC > 95%).
- Delivered as a scientific poster and technical documentation.

MLOps Pipeline & Predictive Forecasting | Python, Docker, CI/CD, Scikit-Learn
- Built an end-to-end MLOps pipeline for agricultural yield prediction (Morocco Agri Yield).
- Trained predictive models, implemented Docker containerization, and automated deployments via CI/CD (GitHub Actions).

Large-Scale Data Analytics & BI | Python, PostgreSQL, Power BI, Docker
- Developed an ETL pipeline ingesting over 1M real transactions into a PostgreSQL star schema.
- Created interactive Power BI dashboards with city-level sales forecasts (Random Forest) and automated refresh via Docker Compose.

Car Price Prediction & API Deployment | Python, Scikit-Learn, FastAPI, Web Scraping
- Web Scraping of real-world data from Moroccan automotive platforms (Avito, Moteur.ma).
- Data cleaning, EDA, and Feature Engineering to train a multi-variable predictive model.
- Deployed an inference API (FastAPI) to serve real-time predictions.

PROFESSIONAL EXPERIENCE

Web Developer Intern — Urban Municipality of Oujda — May 2024 – July 2024
- Contributed to the automation of internal administrative procedures, reducing manual processing times.
- Designed relational database schemas and wrote SQL queries.

Web Developer Intern — Communication Agency, Berkane — June 2023 – August 2023
- Developed a responsive web platform with front-end / back-end integration.

CERTIFICATIONS

- **DataOps Fundamentals** — DataKitchen (2026)
- **Mastering Data Analysis in Excel** — Duke University / Coursera (2025)
- **Prompt Engineering for AI** — Great Learning (2025)

LANGUAGES

- **French** : Fluent / Professional (B2)
- **English** : Advanced (C1)
